Mr. Zaragoza,

I sit on a CAG for the Ringwood Mines Superfund Site in NJ. It is the only Superfund site ever relisted on the site list in US history.

We are in need of a meeting location for our CAG meetings.

The borough hall is not an option as it is set in an old basement of a house and the borough is a responsible party for the contamination, a fact much loathed by local citizens.

To preserve our neutrality, we'd like to have it at the library. The library is advising we need to pay a fee for the rental (\$50.00) and we need insurance. We have neither. The borough administrator called the library and encouraged the library staff to turn us down. (The borough was forced by consent order to participate in the cleanup of the site.)

Requests for financial assistance from Region 2, both in the form of start up monies to apply for a TAG and in going to Region 2's office in order to fill out a grant application with their support have been flatly denied by Region 2. Region 2 refuses to post the TAG grant application on [grants.gov](https://www.grants.gov) after repeated and numerous letters and requests (from me).

The Ringwood Site made national and international news this past week with the discovery of 1,4 dioxane in surface and groundwater feeding into the Wanaque Reservoir, 1.5 miles away (down gradient). We expect lots of legislators, news reporters and the like at our July 13 CAG and we need to confirm the library site immediately.

I did not call Region 2 as they refused to attend our last meeting in June.

Please help,

Judith Sullivan, Esq.

Sullivan Law & Government Affairs, Inc.

Thanks Caroline,

Great to hear from you. You would probably have problems finding anyone else in the office today. Not many of us here.

Larry
